Further information

About me

I prefer positions like

Senior Cloud Engineer / Architect.(AWS)

Senior Linux System Administrator/DevOps.

I like methodologies:

ITIL

DevOps

I'm studying AWS, Azure, GCP, RedHat Openshift

Please, no any interview without test/case.

Main skills:

Technical :

OS: Linux (more than 15 years experience).

Webservers Apache, Nginx, IIS.

Mail: sendmail, postfix.

Good knowledge of MySQL (and forks), PostgreSQL too. Familiar with Oracle.

Networking: routing/switching, VoIP, security. (Both Linux and Windows, hardware solutions(Cisco, Allied Telesys). Well knowledge SDN (OVS etc).

Cloud and Virtualisation Solutions: VMware vSphere, OpenStack, AWS (incl sdk), GCP(incl sdk), MS Azure, Red Hat OpenShift Container Platform.

Virtualization of services: docker (advanced), LXC, kubernetes. Software development: bash

Version control (scm): git, svn. Atlassian bitbucket, GitHub

Good knowledge of CI/CD and tools like Jenkins. Important remark: I'm Operations Engineer, don't ask me to develop code.

Others:

Strong analytical and problem solving skills. Finding root causes.

Ability to work both independently and in a team.

English Intermediate.

Well-experienced IT specialist.

Hardware: IBM, Dell, Cisco, etc.

Practical skills in ITSM.

Well knowledge of information security (ISO27001).

Well understanding of ITIL and ISO 20000.

Last Projects:

ECE inc, as Windows 2012 R2 SA and GCP SDK specialist. www.specificfeeds.com (Inisev Limited) part time, MySQL DBA/Linux System Administrator.

www.polynesia.com (ActivityRez LLC). project job. DevOps Engineer. Master-Slave Jenkins configuration in AWS (Done)
Creating new development workflow based on AWS DevOps services
Atzwanger GmbH. MySQL DEaR configuration, preparation working instruction.
